THE LOCAL DEMOCRACY.

The gold standard wing of the Democratic party in this city and county have control of the party organization. Owing to that it is in the range of safe conjecture to say that the delegates that shall be elected to the forthcoming county convention which shall elect delegates to the state convention will support Bryanism and the Chicago platform. The leaders of the El Paso Democracy have no use for Bryan or free silver. These leaders are also pronounced IMPERIALISTS. That is to say, they are the broadest kind of "expansionists," and on the lines of the national administration. What more can any good Republican ask? Of course the lay men of the party don't like this, or rather they did not, and are now disposed to take the "gold" cure without a grime.

A Hard Rule To Be Revoked.

Old timers who in early days were the victims of Indian depredations will be glad to learn that something is about to be done towards wiping out an unjust rule whereby their just claims against the government have been null and void. The Fort Worth Register says that citizens who have suffered from depredations by Indians in the days when the savages made frequent raids in that state have had experience with the inequitable rules laid down by the court of claims. A movement is now on foot to have congress pass laws modifying those rules and putting them on a basis of justice.

One of the rules against which complaint is made is that which prescribes that Indians must have been at the time of their depredations in company with the United States, in order to make the claim a valid one. That is, if the Indians were at war with this country, the court of claims will not allow redress for their depredations. The hardships of this rule is apparent. In view of the fact that Indians rarely ever attacked white settlers and robbed them except when on the war-path. When they are at peace, doing no harm, the government will allow compensation for damages; but when they go on the war-path and slaughter and steal, the citizen who gets the worst of it from them has no claim on the government, because then they are held to be at war with the United States.

It is a rule of the law of nations that a government is not to be held responsible by its citizens for losses inflicted upon them by the nation with which it is at war. By a ridiculous extension of this rule it is made to apply, apparently, to a predatory tribe of Indians, who are at other times held to be "wards of the

nation". According to the decisions of the court of claims, this country has had more "wars" than any other nation on earth in the same space of time. It turns out from the adjudications of the court that there were twenty wars on the whites by the Sioux Indians alone, although as regarded by the court, their normal condition during all these years was one of peace. What is known to the court as "Victoria war" was waged by a band of renegade Apaches, the remnants of which, when the trouble had ended, returned to their several tribes, which had all the time been fed and clothed by the government. The war with Black Hawks' Utes was prosecuted against an Indian force varying from fifty to 100 men. The war of 1875 with the Utes lasted from sunset of one day to sunset of next. The war of 1890 with the Sioux began and ended was one unequal fight at Wounded Knee—the work of half an hour. The judges have never agreed on the time of the beginning of the chief war of the Comanches and Kiowas which affects a great many claims in Texas, New Mexico and the Indian Territory. The war is determined by the court to have ended March 30, 1893. Some of the judges were inclined to hold that it began in August, 1868. The actual decision is that the Indians were hostile as early as September 22, 1868, but no opinion has ever been written giving reasons for the findings made. During the present term the court has decided that the Mesquero Apaches were at war continuously for five years and a half, beginning in the summer of 1865.

A Swell Omnibus.

The Hallenburger and Longwell Transfer Co. have placed on the streets for the convenience of the public a magnificent omnibus. The entire rig cost \$1,500. It is the swiftest affair that ever has appeared in the south or west. The Hotel Orndorff with its usual enterprise has made arrangement with the company to have their guests conveyed to that popular hostelry free of charge from all calls.

The McGinty Club.

This popular organization is negotiating for a parcel of city property that is no earthly use to it. That is to say, the city.

The concert band of the McGinty Club is famous without doubt it has contributed to the pleasure of the people of this city with any combination of pleasure promoters. And thanks are due to these public spirited citizens who have voluntarily given it support and made it possible for the band to exist.

The McGinties when first organized, some nine or ten years ago, was the meeting that brought El Paso into national prominence. It was said, and it came very near being true, that every citizen of El Paso was a McGinty.

These were the halcyon days of this city. And many an old timer when he thinks of these days leaves a sigh and wonders if they will ever return.

The club has perfected an organization recently upon a permanent basis, and preparations are under way to begin their popular Friday evening concerts about May the 1st. It is the intention to gradually increase the membership as suitable material is available, until it shall compare favorably with the rep-

representative concert bands of the country. The policy of the band, musically, will be to play popular music, such as the masses enjoy. Arrangements have been made with one of the leading eastern music houses to forward each week the popular New York successes.

The citizens of this city are displaying more than usual interest in this organization and it is bound to be this season, a marked success—a band of which El Paso may well be proud.

Bucanian Briefs.

It is a strange desire that some men have, to seek power and lose liberty. Revenge is a kind of a wild justice, which the more a man's nature runs to, the more ought law weed it out.

You had better take for business a man somewhat absurd, than over formal.

Fortune makes him a fool, whom she makes her darling.

Solomon compared people to the sea, and orators and counsellors to the winds; for that the sea would be calm and quiet, if the winds did not trouble it.

The Bostonians.

This comic operative troupe did not want much from the people of this city. It only wanted to stop over long enough to collect a large guarantee from the opera house management. Its proposition was to play a matinee engagement for a thousand dollar guarantee.

Ready to Receive.

The headquarters of THE ALAMOGORDO NEWS is located in the Mills Building opposite to the Sheldon block. Our friends from the north are cordially invited to call upon us when in El Paso.

An Energetic Sheriff.

Sheriff Scott White, of Tombstone, Arizona, has lodged every one of the Fairbank train robbers in jail. Sheriff White is a Texas boy and is related to some of the best families in the state.

Married.

Mrs. B. F. Wade, the late popular and efficient deputy county clerk, was recently married to a young and prominent member of the Albuquerque bar.

Engaged.

A son of Collector Dillon and Miss Bella Schutz are engaged to be married.

The El Paso Democrat is not enthusiastic when it comes to contributing to the national campaign fund.

PERSONAL.

D. N. Neidigh, H. C. Knapp, E. A. McGee and P. Sholnerdine, of Alamogordo, were in El Paso this week.

Col. Harry Alexander was registered at the Orndorff yesterday. The handsome colonel did not seem to mind it a bit, that is to say, being addressed as a "colonel."

Don. Chas. R. Drake, of the Norton, Drake company, merchants and contractors, arrived here Tuesday night in company with "Fighting Joe Wheeler," from the west.

Col. P. J. Finn and wife of Washington, D. C., friends of the popular Superintendent of the Mexican Central, George J. Hartman, were registered at the Orndorff this week.

The following prominent citizens of Phoenix, Arizona, were in El Paso this week: L. H. Chalmers, J. Henry Wood and Walter Bennett. Mr. Chalmers had been to old Mexico examining into the titles of some lands that an eastern elite had been contemplating to purchase. The other gentlemen had been to Pecos city in the interests of the Cobre Grand Copper company, where

they presented an argument before Judge Waltham in an injunction suit. The Doe family were very much to evidence this week in El Paso. There were registered at the St. George Hotel, Martin Boyles popular caravansary. Their names are Jane, Susie and John. In justice however to John it should be explained that John is not the "John" that figures so often in the police court docket in this and other metropolitan cities.

—The Poseners' Millinery Spring opening has been a decided success. The throngs of delighted ladies who crowded the store to its full capacity were greatly surprised at the vastness of the collection of the beautiful designs and patterns of hats, etc. And what pleased them most of all was the lowness of the prices. No. 3 Plaza, El Paso, Texas.

Enterprising Advertisers. Messrs. Joe Stein and Oscar Uhlig, whose advertisement appears in this issue, are well known caterers. Their restaurant is always well patronized because they always give value received.

The Troy steam laundry is a popular institution in this city. The local patronage is large, and as it grows the company ever keep abreast with the demand to turn out work with despatch by employing more capable help. The company's desire to do an enlarged business is proved by the appearance of its advertisement in this issue of the News.

The El Paso Foundry & Machine Company have just received a car load of Charter gasoline engines ranging from 3 to 16 horse power. The "Charter" is the pioneer in the gasoline engine field, being the first engine to successfully use gasoline as fuel in the United States. It occupied the field alone for a number of years, during which it made a reputation that it still holds, of "being the simplest, most reliable, economical and substantial engine on the market". Mr. W. N. Small, the manager for the Foundry company, wishes it to be known that he will be pleased to have any of our friends who are contemplating purchasing an engine for irrigation or any other purpose to call on him, that he will show them over the works and let them inspect the engines. Attention is called to the company's advertisement in this issue.

Working Night and Day. The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globe of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c per box. Sold by W. E. Warren & Co., druggists.

—If you stop at the Orndorff you will never go to any other hotel.

—Fresh shipment of candy just received. Aragon Bros. Drug Co.

—The celebrated Washburn mandolins, banjos and guitars at Rhombert's, P. O. block.

—I am now prepared to supply the local market with coal in any quantities. De livered free. W. P. Johnson.

THE ORION MINING COMPANY

OF

EL PASO, TEXAS.

(Incorporated under the laws of the Territory of New Mexico)

AUTHORIZED CAPITAL, \$200,000.00

Divided into 200,000 Shares of \$1 each, FULL PAID and NON-ASSESSABLE

This Company has purchased

THE DUNDEE MINE.

A Valuable property, 600 feet by 1500 feet, located in the Shakespeare camp, three miles south of Lordsburg, N. M. The Dundee has just been opened up, producing profitable shipping ore from the surface, carrying copper, gold and silver values. Two cars of ore shipped gave net returns of more than \$400 per car. There are thirteen ten foot shafts and open cuts, from which one car of shipping ore is now being mined per week, and two fifty-foot shafts along the lead, one of which is being continued down as a main working shaft at the rate of one foot per day, to open up and block out ore bodies, making the property a regular producer.

This company also owns 13 claims in Jarilla Camp, Otero Co., N. M. Two of them, the Three Friends and Black Hawk, having been purchased, and on which 400 feet of development work has been completed. Both of these claims give excellent promise of becoming profitable producers with additional development. To develop the Dundee mine and to continue the development on the Three Friends and Black Hawk, the company now offers to the public, limited to April 1st, 10,000 shares of its 40,000 treasury stock at 50c. per share, and the remaining 30,000 shares will be held at par. Subscriptions will not be received for less than fifty shares. Subscriptions by mail must be accompanied by cash or exchange to cover. Subscriptions by telegraph will be reserved for five days pending confirmation and receipt of cash to cover.
